Durban

– The warmest place to be

Tourists from all over the world have been coming to Durban for more than half a century, attracted mainly by the city's famous beaches and the all year-round sunshine. But once they arrive here, they soon discover that this city has a lot more than beautiful, golden beaches to offer.

It is a centre of world-class sport and hosts major international events. It is a shoppers' paradise with sophisticated shopping malls and precincts, craft markets and street bazaars. It is an entertainment and hospitality centre offering a wide range of accommodation from swish beachfront hotels to themed lodges, guesthouses, self-catering apartments and homely B&Bs. It is also a bustling commercial and manufacturing centre connected to the business capitals of the world, and is built around one of the busiest ports in Africa.

Durban's people are friendly and laid-back, and reflect a rich cultural diversity that includes African, Eastern and Western influences.

Perhaps it's this blend of culture, art and environment that makes Durban so unique. There's nowhere else quite like it.

There is an abundance of breathtaking scenery just beyond the city. To the north lies the bustling coastal town of Umhlanga, packed with hotels, restaurants and beautiful beaches. To the south is the Sapphire Coast, an endless stretch of sub-tropical paradise dotted with holiday towns. To the west lies the verdant Valley of 1000 Hills with its nature reserves and cultural villages. A little further afield, the Big 5 game reserves are just a few hours' drive away, while to the west the mighty uKhahlamba Drakensberg Park - a World Heritage Site - beckons.

Durban Central Experience

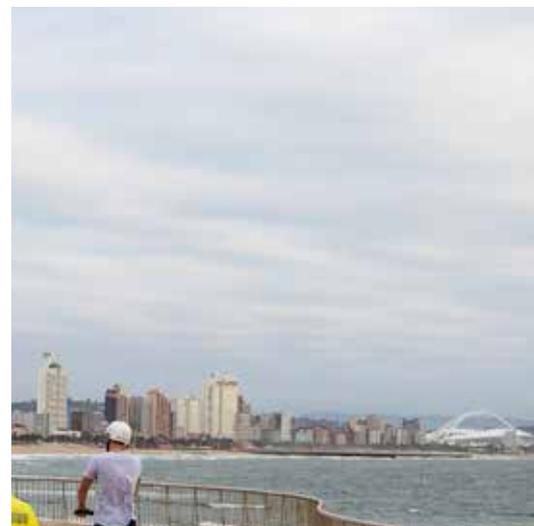

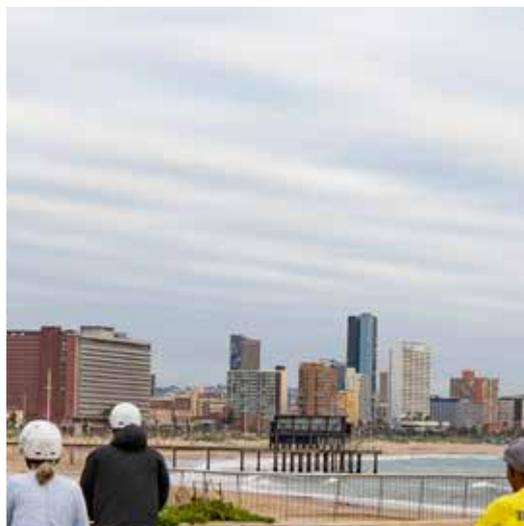

Durban is a vibrant and dynamic city of contrasts with a potent and exciting mix of cultures. There is so much to do and see; you will have to come back again and again to experience all that it has to offer.

The Durban city centre is a bustling business and entertainment hub situated around a busy harbour. The best way to enjoy views of the harbour and city skyline are to take a harbour cruise or eat at one of the waterfront restaurants at Wilson's Wharf.

A mile of golden beaches on the eastern edge of the city extend from the exciting uShaka Marine World, near the harbour entrance, all the way to the Suncoast Casino, Hotels & Entertainment World with its restaurants, cinemas and gaming halls. There are many hotels, restaurants and bars dotted along this strip to keep you entertained.

Durban's ocean playground

Durban is one of the few cities in the world that offers world-class surfing waves right on its doorstep. Epic 'beach break' surf conditions can be found along the entire Durban beachfront, particularly at New Pier, North Beach and Battery Beach. For more experienced surfers, the Bluff and North Coast offers powerful reef breaks, and the South Coast is home to some world-class point breaks.

Other ocean activities that can be enjoyed are swimming, fishing, jetskiing, snorkelling, canoeing, windsurfing and kite surfing. Durban's mild all-year-round climate and 19°C-24°C water temperature make it a summer AND winter holiday destination.

Munch a 'bunny chow'

The bunny chow, a hollowed out loaf of bread filled with curry, is Durban's most famous culinary invention, and no visit to the city is complete without sampling one. They're sold at almost every corner cafe and take-away.

Art and architecture

Visually, Durban is a captivating city thanks to its heady mix of Victorian, Edwardian, Art Deco, Indian Traditional and modern architecture. The influences of Asian, African, English Colonial and Afrikaans cultures have all produced some rare and unique styles, making Durban's architecture astonishing in its quality and diversity. It is also a city that is rich in art- African, classical and modern.

A city tour will take in Durban's gorgeous Golden Mile, the City Hall and the Natural Science Museum, not to mention the numerous art galleries such as the Durban Art Gallery, the BAT Centre and the African Art Centre.

Founded in 1887, the Natural Science Museum is one of South Africa's smallest but busiest and most interesting

museums. Set in the City all building, the museum is renowned for its realistic habitat displays, life-size model of a Tyrannosaurus Rex, a near-complete Dodo skeleton and Egyptian mummy, Peten Amen" (remove the mention of the mummy as it was or is due to be sent back to Egypt.

A Rich Cultural Heritage

One of Durban's most unique features is the cultural mix of its people who have come from all corners of the globe.

The Nguni people migrated from Central and East Africa many centuries ago and settled in what is now KwaZulu-Natal where they herded cattle and hunted wild game. King Shaka was instrumental in unifying different tribes and the Zulu nation was born. The colonial era began in the early 1800s with the arrival of British settlers, followed by Boers from the Cape, originally from Europe. In the 1860s Indian indentured labourers were brought in from British India to work the sugar plantations. They were followed by traders, merchants and religious leaders from the East, which resulted in the establishment of a large and diverse Indian population. The result is a cultural mix of Eastern, Western

and African influences that are visible everywhere, in the art and architecture, fashion, cuisine and language.

Because of the religious and cultural diversity, many fascinating festivals and celebrations are held in and around the city throughout the year. Hindu temples hold annual fire-walking ceremonies, and in April the Durban beachfront comes alive with masses of devotees celebrating the Hare Krishna Festival of Chariots. On weekends Zionists gather at various sacred spots around the city in their flowing white robes. They also hold baptising ceremonies at the beachfront.

The Jumma Masjid

The sound of the muezzin calling the faithful to prayer echoes across downtown Durban from the Jumma Masjid, also known as the Grey Street Mosque. This magnificent mosque is the largest in the Southern Hemisphere and a central landmark in Durban's Indian district.

Architectural Marvel: Built in 1881 and expanded over the years, the mosque features a unique blend of Islamic decorations and Union period vernacular style. Its gilded domes and minarets tower over the bustling commercial area, while inside, the marbled worship hall offers a peaceful and elegant retreat.

Cultural Hub: Surrounding the mosque, you'll find a vibrant community with Indian food outlets offering local delicacies like the famous 'bunny chow'. The nearby Madressa Arcade bazaar and Victoria Street Market add to the cultural richness of the area.

Historical Significance: The mosque has been a cornerstone of the Muslim community in Durban for over a century, reflecting the city's diverse cultural and religious heritage.

Jumma Masjid – A Beacon of Faith and Culture in Durban!

Brave the Muti Market

Explore Durban's fascinating 'Muti' (traditional medicine) Market in the city centre for a unique insight into traditional African medicine and healing practices. Wander through the market and witness the preparation and sale of various traditional medicines.

Important Note: For a safe and informative experience, it is recommended to visit the market with an accredited tour guide. Discover the rich heritage and healing traditions of Africa at the Muti Market!

Art galleries for Africa

Durban is home to many art galleries that exhibit a mixture of contemporary, classic and traditional arts and crafts, including the work of celebrated South African artists.

KwaMuhle Museum

Once the office of the notorious Department of Native Affairs, the KwaMuhle Museum provides a vital link with the city's apartheid past with its powerful displays. Learn about the history of Cato Manor, which has been restored and upgraded to cater for previously marginalised communities.

Victoria Street Market

This vibrant Indian Market with its colourful stalls, fish market and curio outlets is a favourite for tourists.

Shop till you drop

Durban is a shopper's paradise and offers many different shopping experiences. Street markets in and around the city offer a variety of crafts and beadwork. The Indian district in downtown Durban offers a huge selection of goods from the East as well as spices and curry powders. Boutique clothing shops are dotted here and there where you'd least expect them, while the shopping malls house all the big chain stores and are bursting at the seams with the latest clothes, fashion accessories and toys.

The Umhlanga Coast

The Umhlanga Coast stretches for miles north of the city, framed by fields of green sugar cane and the endless golden beaches that this part of the world is so famous for.

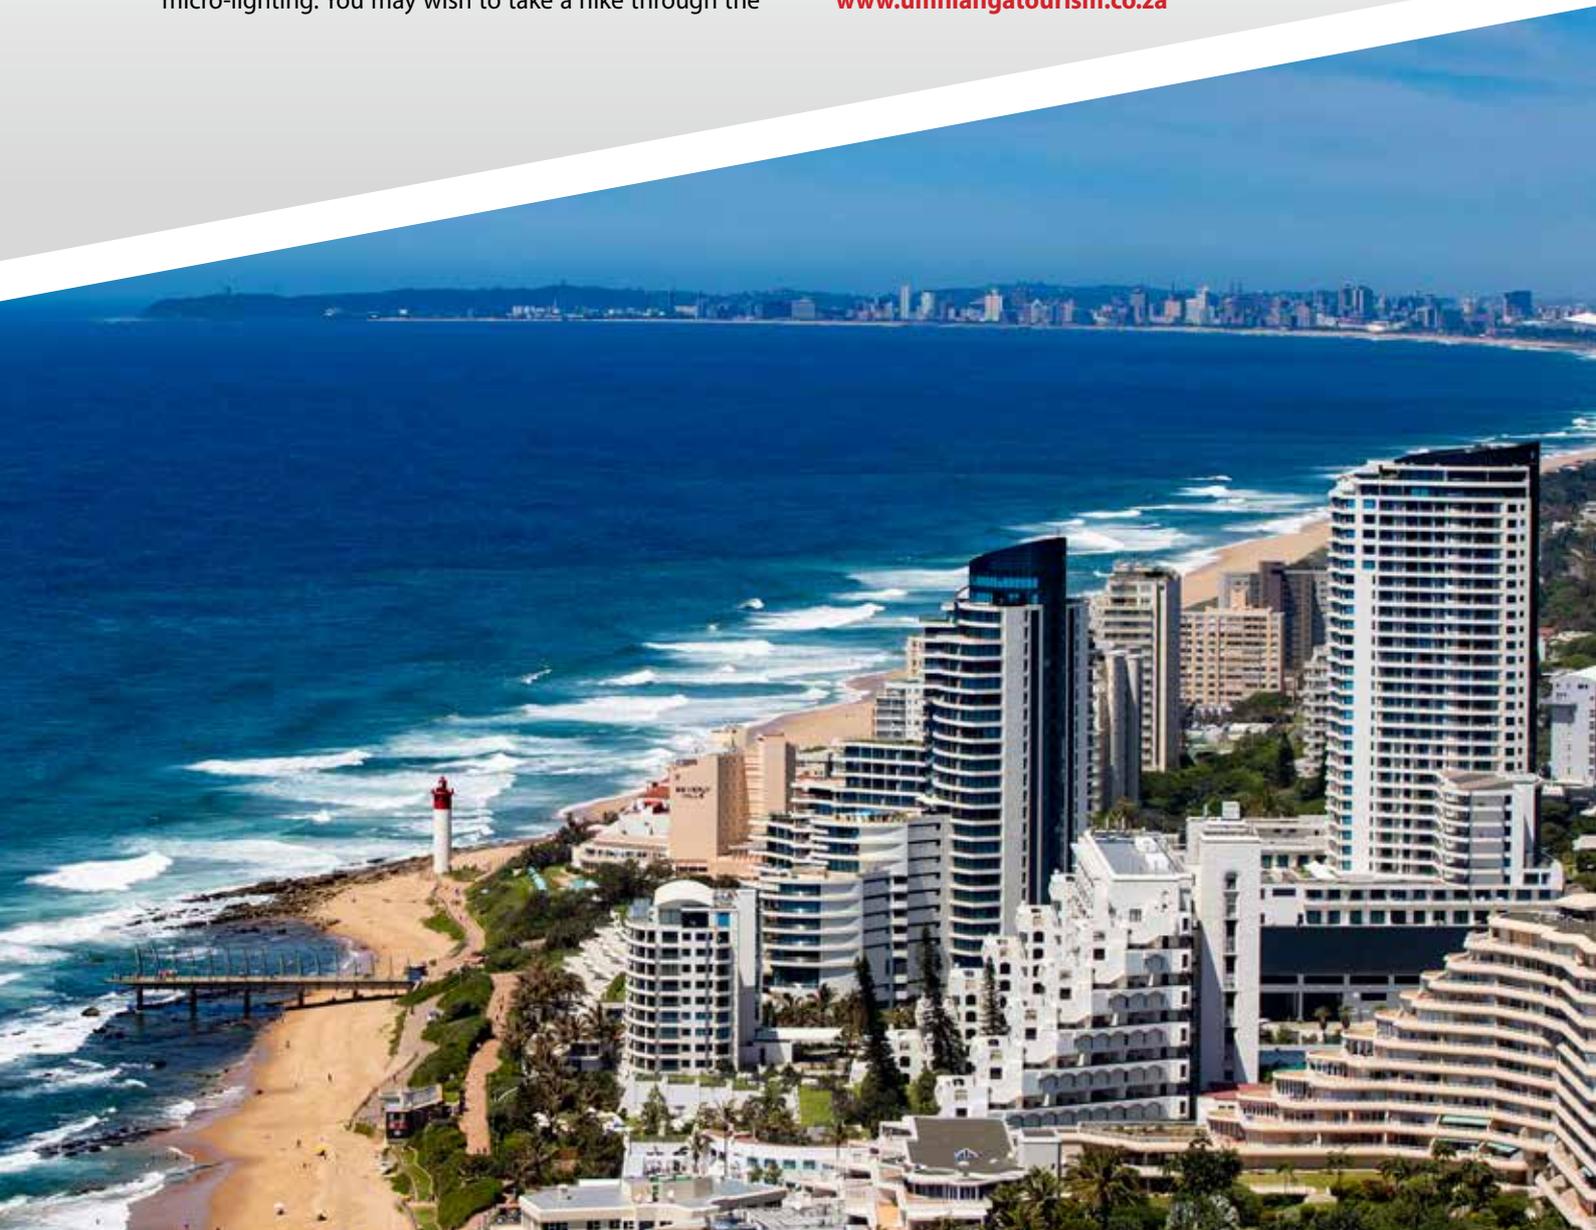

At the epicentre lies the holiday town of Umhlanga Rocks, part city, part beach resort, part shopping paradise. Apart from the fine wining and dining that takes place in this holiday environment, there is an endless choice of exciting activities to enjoy, like surfing, swimming, fishing, dolphin and whale watching, shopping and micro-lighting. You may wish to take a hike through the

coastal Hawaan Nature Reserve, or just laze around on the beach soaking up some sun.

For those seeking a little more peace and quiet, the friendly villages of Umdloti, La Mercy and Westbrook lie in wait just a little further along the coast.

Marianhill Monastery

Mariannhill Monastery is a haven of tranquility. The people who live and work here are friendly, and enjoy talking about the place. They don't have to follow the Trappist dictum that conversations should be entered into only when necessary.

Missionary work in Africa was impossible without communication, so Pope Pius X signed a decree that separated the missionaries at Mariannhill from the Trappist Order but they remained part of the rest of the tradition.

The monastery was founded by a hard working monk called Francis Pfanner. He bought a farm called Zeekoeigat (Hippopotamus Pool) in 1882. Pfanner coaxed the local chief, Manzini, to bring 300 families to live around the monastery and form a congregation. There, the local children were given elementary schooling in the mornings, and practical courses in agriculture in the afternoons. They were also taught skills such as printing, carpentry, blacksmithing and tailoring and the mission soon became self-supporting.
