The Sapphire Coast

The town of Amanzimtoti (meaning 'sweet waters' in isiZulu) is said to have been named by the great Zulu King Shaka after tasting the fresh water that flows out of the hills at this scenic spot. It is situated on the coast a short drive south of Durban.

This part of the coast is a popular destination for scuba divers who come to explore Aliwal Shoal, a fossilised sand dune that lies 5km off the Umkomaas river mouth. A myriad of warm water reef fish and cold water fish converge on Aliwal Shoal to create a kaleidoscope of colour. For those who prefer to remain on terra firma, the beaches of the Sapphire Coast provide plenty of opportunities to enjoy swimming, surfing or fishing. Nature lovers can explore the Amanzimtoti Bird Sanctuary or stroll in one of the nature reserves. For a taste of local history or culture, there are a number of arts and crafts stores offering a selection of handmade goods, and the Adams Mission College, founded in 1884.

Inanda Heritage Trail

The Inanda Heritage Trail allows a visit to some of Durban's most important historical sites, places where South Africa's future changed for the better because of the bravery of a few individuals. The Phoenix Settlement is where Mahatma Gandhi developed his philosophy of passive resistance which has been lauded the world over, and his home has been turned into a monument dedicated to lasting peace and justice.

At Inanda Township, one can visit the Ohlange Institute, founded by the first president of the African National Congress, Rev. John Dube; this is also the site where Nelson Mandela cast his historic vote in South Africa's first democratic elections in 1994. The Inanda Seminary is one of the oldest and most famous schools for girls in South Africa and has a legacy of producing some of the country's finest black women leaders. Mixing with the locals in a vibrant township

Townships offer visitors a glimpse of another side of Durban. Originally established by the apartheid government to house black people working in the city, townships have become sprawling and vibrant neighbourhoods in the post-apartheid era where an exciting new urban African culture is being born.

No visit to Durban is complete without a tour to one of these townships. Tours guided by knowledgeable locals will provide visitors with the opportunity to immerse themselves in the rich community life townships enjoy and experience the pulse of this vibrant culture.

Umlazi is the biggest township in KwaZulu-Natal and the second biggest in South Africa after Soweto. It was established in 1967 as a black township under the apartheid government; now free of the oppression that defined life under apartheid, Umlazi is a buzzing example of township life in South Africa. With massive infrastructural development since 1994, it's an interesting and fun place to visit as part of the tour, with friendly locals and great food and drink on hand.

PHOTO COURTESY OF MOJO'S

Durban is home to a number of other large townships, including Clermont/Kwadabeka, Inanda and KwaMashu. Inanda has a rich history, being the site of the home of John Langalibalele Dube (the first president of the African National Congress), as a base of operations for Mahatma Gandhi, and the site of Inanda Seminary, one of the oldest schools for girls in South Africa.

Guests can visit a shebeen (which means 'hidden bar') or a *shisanyama* (where meat is grilled on open fires), where locals meet to drink and eat together in a lively atmosphere.

Durban's rich culture, heritage and architecture

One of Durban's most unique features is the cultural mix of its people who have come from all corners of the globe.

The Nguni people migrated from Central and East Africa many centuries ago and settled in what is now KwaZulu-Natal, where they herded cattle and hunted wild game. King Shaka was instrumental in unifying different tribes and the Zulu nation was born. The colonial era began in the early 1800s with the arrival of British settlers, followed by Boers from the Cape, originally from Europe. In the 1860s, Indian indentured labourers were brought in from British India to work the sugar plantations. They were followed by traders, merchants and religious leaders from the East, which resulted in the establishment of a large and diverse Indian population. The result is a cultural mix of Eastern, Western and African influences that are visible everywhere, in the art and architecture, fashion, cuisine and language.

Visually, Durban is a captivating city thanks to its heady mix of Victorian, Edwardian, Art Deco, Indian Traditional and modern architecture. The influences of Asian, African, English Colonial and Afrikaans cultures have all produced some rare and obscure styles, making Durban's architecture astonishing in its quality and diversity. It is also a city that is rich in art – both African, classical and modern.

A city tour will take in Durban's gorgeous Golden Mile, the City Hall and the Natural Science Museum, not to mention the numerous art galleries such as the Durban Art Gallery, the BAT Centre and the African Art Centre.

Adventure in and around the city

If you're an adrenalin junkie, Durban is the place to be as there are all sorts of adventures and exciting activities to enjoy. In the water, on land or in the air, visitors can participate in a different adventure sport every day of the week.

Scale a sheer cliff face

The Valley of 1000 Hills area is home to a variety of climbing sites with routes for beginners and advanced climbers to enjoy. Monteseel and the 'wave cave' at Shongweni Dam are two of the best-known spots.

Gone fishing

The Indian Ocean teems with life, and fishing enthusiasts come from all over the country to angle off Durban's beautiful shoreline. Deep-sea fishing charters are also available from Durban harbour, and from ski-boat launches north and south of the city.

Explore on horseback

Enjoy a horse trail through the sugar cane, coastal bush or along a deserted beach. It's a wonderful way to enjoy the scenery and the sunshine. These tours cater for both experienced riders and beginners, so bring the family along.

Scuba diving wonderland

Aliwal Shoal, one of the top 10 dive sites in the world, is Durban's prime diving destination and attracts divers from around the world. Dive boats launch from the Umkomaas River, south of Amanzimtoti, to get to the reef which is about 4km long and lies some 5km offshore, with depths ranging from 5m to 35m. The reef runs almost parallel to the shoreline and its many gullies, overhangs, caves and shelves are home to a vast array of marine life. Two wrecks lying near the shoal – the *Produce* and *Nebo* – provide divers with alternative underwater experiences.

Other adventure

There is so much to do in Durban – mountain biking, dolphin and whale watching, trail running, jet-skiing, canoeing, kayaking, kite surfing, white water rafting and more.

A golfer's paradise

Durban has a number of internationally-renowned golf courses offering even the most discerning golfer an unparalleled golfing experience. Set among lush, subtropical environs, the magnificently manicured fairways and greens offer some uniquely spectacular experiences. From sea views to indigenous forest and even some courses with wild game, golfers will find many challenges and memorable holes to test their abilities. You could spend a week or more in Durban and play a different 18 - hole course every day, and the 19th-holes are also legendary.

Durban Country Club

The Durban Country Club golf course is considered by some to be the best golf course in South Africa and is the only golf course in Africa rated in the top 100 by *Golf Magazine*. Situated close to the shore of the Indian Ocean, the course has been masterfully fashioned into the dunes. Durban Country Club is also home to numerous indigenous plants and trees, as well as some rare birds that grace the fairways. Visiting golfers are very welcome to come and play this unique course, and enjoy the ambiance and facilities of this world-renowned club.

Royal Durban Golf Club

At first, Royal looks easy with its flat layout, absence of trees and no excessively long rough. The lack of large trees considered a contributing factor to the difficulty of the course, as there is no protection from the wind. The length of 6 115m could label Royal Durban a short course by modern standards, however, in summer conditions, it plays more like 6 500m, with little run on its fairways, and humid subtropical atmosphere.
